 - Monitoring and reporting of mid-cycle changes. We will be preparing a presentation for membership plus handouts as we get closer to these changes going into effect.
 - Continuing to participate in LA Basin Code Committee meetings.
 - Proposed revisions to 2027 IBC are in and being compiled. These will be published in latter part of February.
 - LA Basin is Group A (egress, IFC, International Swimming Pool Code)
 - We will provide comments and recommendations on proposed revisions via Google sheets document, and will need one editor from SVABO to populate our recommendations. This review will need to be completed by the latter part of March in advance of the Group A Committee Action Hearings in April (meeting in Florida). LA Basin CAC will meet weekly through March.
 - We understand CALBO bylaws have been amended to allow a similar committee code action committee, and LA Basin is interested in coordinating with CALBO to minimize duplication of efforts.
 - We will be bringing code discussion items to the membership in our chapter meetings.
 - Substitution for sprinklers? See Code Question.
 - We will be adding information to website related to committee interpretations of code items.
